**Teacher Training Program**

## Create Your Own Learning Apps for Your Students

Practical, hands-on training to help teach design simple, engaging learning apps for School learners.

## About the Program

Learn to create your own interactive learning apps for Basic school to explain complex topics using simple, user-friendly tools. No advanced coding skills needed.

## PlayLab is a Game Changer for Teachers

- When you want to create engaging lessons children love.
- When you need localised, curriculum-aligned content.
- When you want learning to be more interactive and fun.
- When you want to use technology confidently.
- When you want to see your students activity, and progress reports

## Target Group

**KG, Basic School, JHS, SHS, NVTI, Tertiary**

Create learning apps for your students Irrespective of the level you teach.

### Hands-on Training
Step-by-step guidance

### Easy-to-Use Tools
No coding Skills Needed

### Curriculum Aligned
Based on GES curriculum

### Ongoing Support
Join a teacher community
